COURSE DETAILS

The Project Management Professional (PMP)® certification is a must-have for any project manager or freelance whose livelihood is highly dependent on successful execution of projects. PMP credential holders on average earn over 20% more than those without the certification. The PMP certification can help your resume stand out, help you land your next job, and enable you to deliver your projects on time, on budget, and within scope.

Project Management Academy prides itself on making sure you are prepared to pass the exam on your first attempt. We offer the most comprehensive and highest-quality training materials available. After our exam prep course, you will have all the knowledge and tools needed to take the next step in your career. Our PMP certification training prepares students better than any other provider and we have a pass rate of over 99.9% to back it up.¹

Our PMP certification boot camp can also be taken by individuals looking to earn their CAPM certification. The Certified Associate in Project Management (CAPM)® certification allows aspiring project managers to distinguish themselves even before gaining the necessary 3+ years of work experience to acquire the PMP credential. Unlike the PMP certification there is no additional work experience required to sit for the CAPM exam.

How You Will Benefit

- Better utilize tools and techniques to more effectively manage projects
- Preparation for a credential that can be a key differentiator with employers
- Speak the PM language and improve communication with clients & key stakeholders
- Increase client satisfaction

What You Will Learn

- Understand *A Guide to the Project Management Body of Knowledge (PMBOK® Guide) - Sixth edition* process groups and knowledge areas
- Master critical concepts, tools & techniques, and key terminology
- Application of best practices when leading and managing a project
- Calculate and apply essential formulas
- Complete understanding of how to take the PMP exam
